Exit Slip

- 1 In one or two sentences, summarize the most important thing you learned in today's lesson.
-  There can be random variables that are neither purely discrete nor continuous.
- 2 What is one question you have or one concept from the lesson you would like more of an explanation about?

Didn't understand how you group by 1 through to the number of rows in the observation while sampling for exercise 2.17. It's been a while I worked in the R environment.
